Return of the Philo Café discussion group

FORT PLAIN – The Fort Plain Free Library announces the continuation of its bi-monthly philosophical discussion group, the Philo Café, starting this month. The next gathering will take place on Thursday, Sept. 19.

The Philo Café is a free and casual forum for individuals relishing a hearty but respectful dialogue about a range of ideas and topics. Topics are based on input from those present. A veritable feast, each get-together of the philosophically-minded takes place at the 19 Willett St. library on the first and third Thursdays of each month from 6:30 - 8:30 p.m. There is no charge.

For more information, call 518.993.4646. Follow the library on Facebook for updates.

Broccoli Harvest Salad

Summer is almost over. Winter will be here sooner than most of us want. Let's gather family and friends together for one last chance to have fun in the sun. We'll provide a tasty salad dish!

- 2 3/4 cups chopped fresh broccoli
- 1/4 cup raisins
- 1 cup unpeeled, cored and chopped Red Delicious apples
- 1/4 cup finely chopped red onion
- 1/4 cup bacon bits
- 1/3 cup shredded reduced-fat cheddar cheese
- 1/2 cup fat-free mayonnaise
- 1 tablespoon white vinegar
- Sugar substitute to equal 2 teaspoons

sugar

1. In a large bowl, combine broccoli, raisins, apples and onion. Stir in bacon bits and cheddar cheese.

2. In a small bowl, combine mayonnaise, vinegar and sugar substitute. Add mayonnaise mixture to broccoli mixture. Mix well to combine.

3. Cover and refrigerate for at least 20 minutes. Gently stir again just before serving. Makes 6 (2/3 cup each) servings.

* Each serving equals: 94 calories, 2g fat, 5g protein, 14g carb., 409mg sodium, 2g fiber; Diabetic Exchanges: 1 Fruit, 1 Vegetable.

High River Energy Center LLC, 90-Megawatt Solar Photovoltaic Generation Project, Town of Florida, New York

NOTICE OF SUBMISSION OF APPLICATION

High River Energy Center LLC (“High River” or “Applicant”) is seeking authority from the New York State Board on Electric Generation Siting and the Environment (the “Siting Board”) to construct a 90-megawatt (“MW”) solar photovoltaic electric generating facility (the “Project”) in the Town of Florida, Montgomery County, New York, under Article 10 of the New York State Public Service Law (“PSL”). Pursuant to PSL § 164 and 16 NYCRR § 1000.7, Applicant hereby provides notice that, on or about September 24, 2019, it intends to file its Application with the Siting Board for a Certificate of Environmental Compatibility and Public Need authorizing construction and operation of the Project.

The Project components will include solar photovoltaic panel arrays connected by underground collection lines that will generate electricity to be delivered into New York State’s transmission system via an onsite switchyard that will be transferred to National Grid to own and operate. The Project is proposed to be constructed on land either leased or purchased from owners of private property.

The Project will safely generate enough clean, renewable electricity to power approximately 22,000 households. The Project will not emit or discharge any pollutants, and it will avoid other impacts associated with traditional fossil-fueled generating facilities, such as water usage. The Project will also contribute to New York’s goal of generating 70% of all electricity consumed in the State with renewable resources by 2030, and eliminating all power-sector emissions by 2040. Further, the Project will benefit the economic growth of the local community through the creation of temporary and permanent jobs, increased tax revenues, and new payments to local farmers that will help them maintain farming operations on other properties.

Construction and operation of the Project will not result in negative impacts to health, air, or water resources. The Project is mostly located on land that is already cleared and therefore avoids disturbances to forested lands to the maximum extent practicable. All impacts resulting from construction and operation of the Project have been minimized to the maximum extent practicable.

The Applicant intends to request a Water Quality Certification (“WQC”) pursuant to Section 401 of the Federal Clean Water Act. The WQC is necessary to obtain a permit from the U.S. Army Corps of Engineers.

The Application contains all the information by the proposed stipulations filed in this Article 10 proceeding. Studies and analyses as required by the proposed stipulations and Article 10 address many disciplines such as land use, noise, preliminary engineering, avians, and decommissioning. The Siting Board will determine whether the Application is compliant with the Article 10 requirements. Once it is deemed compliant, the Administrative Law Judges (“ALJs”) assigned to this proceeding will schedule a public hearing and issue a notice that intervenor funds, in the amount of \$90,000, will be available for eligible parties participating in the Application phase. The ALJs will also schedule a pre-hearing conference to identify parties, award intervenor funds, identify issues for the hearing, and establish a case schedule. After the hearings, intervenors may submit briefs to the ALJs who will then issue a recommended decision, upon which the Siting Board will render its decision on whether to certify the Project and under what conditions. State law requires that the Siting Board must render a decision on the Application within 12 months of its determination that the Application is compliant with the Article 10 requirements.

Interested, eligible municipal and local parties may apply for intervenor funding to be used to pay for expenses such as administrative, attorney, and/or consultant fees.

A guide to applying for intervenor funding can be found on the New York State Department of Public Service’s (“DPS”) website by using the following direct link: goo.gl/avcprS.

Any interested person wishing to receive all notices concerning the Project may submit a request to Hon. Kathleen H. Burgess, Secretary, New York State Board on Electric Generation Siting and the Environment, Agency Building 3, Albany, NY 12223-1350 or electronically to secretary@dps.ny.gov. Documents concerning the Siting Board’s review of the Project may be viewed at the DPS website located at www.dps.ny.gov by clicking “Search” on the homepage and then entering Case 17-F-0597 in “Search by Case Number.”

Additional information on how to participate in this proceeding may be obtained by contacting High River’s project representative or the Siting Board Public Information Coordinator:

Tomato Vinaigrette

This summer's-end salad dressing starts with a whole tomato, which lends body and richness.

- 1 small tomato
- 1 small shallot
- 2 tablespoons olive oil
- 1 tablespoon red wine vinegar
- 1 tablespoon balsamic vinegar

- 1 teaspoon sugar
 - 1 teaspoon chopped fresh oregano leaves
 - 2 teaspoons Dijon mustard with seeds
 - 1/4 teaspoon salt
 - 1/4 teaspoon ground black pepper
- Peel tomato. Coarsely cut up tomato and shallot. In blender at medium speed, blend tomato, shallot and remaining ingredients just until smooth. Store in re-

frigerator for up to 2 days. Makes about 1 cup.

Whatchamacallits

Although this isn't a bonafide whatchamacallit (as hopefully everyone knows these are railroad spikes), the silver-plated one has a special story behind it.

I photographed both of them for comparison purposes and I hope you've noticed that the rough one is longer than the other. That is because it was spiked into regular roadbed, on the ground. The silver one was once spiked into elevated trackage and the ties were not as thick.

The Third Avenue Elevated Line, affectionately called the "EL" (pronounced

like the letter L), ran in New York City from 1878 to 1955. Eventually totally replaced by the subway system, the Manhattan portion of the EL was closed in sections from 1950 - 1955.

This spike was a presentation gift commemorating the final Manhattan section closure on May 12, 1955 and was given at Christmas of that year to an extended family member. The giver was Max E. Buck, director of merchandising of National Broadcasting Company Inc. (NBC), which was located in the RCA building at Radio City.

The spike is engraved "A memento of the 3rd Avenue 'EL' WRCA and WRCA-TV New York." Part of the personal note reads "There'll never be another Christmas like this one - because the Third Avenue 'EL' will be gone forever."

Italian Sausage and Potatoes
The dynamic duo of pork sausage and peppers gets even heartier when earthy red potatoes are added. To cut out some of the fat, try this dish with turkey sausage instead.

1 pound sweet and/or hot Italian sausage, cut crosswise into thirds
1 pound small red potatoes, each cut in half
1 large (about 1 pound) onion, cut into 12 wedges

2 red and/or yellow peppers, cut lengthwise into 8 pieces
1 tablespoon olive oil
1. Heat oven to 450 F.
2. In 15 1/2-by-10 1/2-inch jelly-roll pan, combine sausages, potatoes, onion, peppers, olive oil, 1/2 teaspoon salt and 1/4 teaspoon black pepper; toss to coat.
3. Roast sausage mixture 30 to 35 minutes or until potatoes are fork-tender and sausages are lightly browned, stirring once halfway

through roasting.

Two rabies clinics announced for Sept. 14

• Saturday Sept. 14, at Town of Amsterdam Highway Dept., 283 Manny's Corners Rd., Amsterdam
 • St. Johnsville Town Barn, 7431 Route 5, St. Johnsville

Both clinics run from 9 - 11 a.m.

New York State Public Health Law requires that all dogs, cats and domestic ferrets shall have initial vaccinations administered against rabies no later than four months of age and stay up to date with re-vaccinations. Re-vaccina-

tions are required one year later and a booster shot every three years. It is important to have pets vaccinated in a timely manner in order for the pet to be considered protected against the virus. Pet owners should bring proof of their pet's last rabies vaccination. This helps the veterinarian determine whether the pet will receive a one- or three-year vaccination; without it your pet will receive a one-year vaccination only.

Veterinarian administration fee

is \$10 per rabies vaccine. Other vaccines will be available for additional fees.

To assure the safety of other pets and people, dogs must be leashed and cats and ferrets must be contained in a pet carrier or box when attending the rabies clinic.

For more information about rabies contact Montgomery County Public Health at 518.853.3531 Monday - Friday from 8:30 a.m. - 4 p.m. or call your veterinarian.

Christmas in July at the Old Palatine Church

by Rachael Takacs

On a Sunday afternoon, the historic Old Palatine Church hosted a beautiful Christmas in July concert complete with Christmas decorations, singing carols and listening to the talented organist Richard VanAuken and his equally talented wife/pianist, Evelyn. Hailing from Montrose, PA, the VanAukens are beloved by many and well-known for their many different concerts and appearances around the country.

Introducing the program that afternoon was president of the Palatine Society, Pastor William Hodgetts. "Thank you for coming to the Palatine Society's midsummer program, Christmas in July!" exclaimed Hodgetts. "I hope you've all been good boys and girls throughout the year, because you never know - Santa may suddenly appear." He introduced the VanAukens and offered special thanks to those who helped make the concert possible. "We also want to thank Janet from

Lee's Shops at Wagner Square in Canajoharie for her willingness to share her artistry with us today," Hodgetts stated.

The VanAukens performed many pieces of festive music, including excerpts from Handel's "Messiah" as well as several other holiday favorites such as "Away in a Manger" and "God Rest Ye Merry Gentlemen." They also performed some lesser known pieces such as "Zu Bethlehem Geboren," "In Dulci Jubilo" and a medley known as "Christmas Bells." Audience

members were given the chance to sing along to such songs as "It Came Upon a Midnight Clear," "The First Noel" and "Joy to the World." Guests couldn't help but feel jolly and full of the Christmas spirit throughout the performance.

Concluding the Old Palatine Church's summer season is their annual Potpourri on Sept. 22. For more information on the many events the church hosts, as well as its interesting history, visit old-palatinechurch.org.

Organist Richard VanAuken performs "Rejoice, Rejoice, Believers."

44th Antiques in Schoharie

A true sign of autumn is the antique show held at the Schoharie Valley Railroad Complex on Depot Lane in Schoharie Village on Sept. 21 from 10 a.m. - 5 p.m. and Sept. 22 from 11 a.m. - 4 p.m. The Schoharie Colonial Heritage Show Committee has made their final plans for the delicious homemade food, dealer spaces, gate people, the final setup for parking, etc. It takes a cast

of many members, but after 44 years, it comes off without a hitch. The dealers bring all kinds of treasures from the past. You'll find stoneware, furniture, quilts, home-spun blankets, jewelry, Indian artifacts, Oriental rugs, toys and everything in between. Dealers from Pennsylvania, Vermont, Massachusetts and New York make this show each and every year. The quality

of merchandise is always topnotch, and buyers can be assured of buying the best of the best. A special event this year is an exhibit and sale of quilters and weavers from Schoharie County, the Stony Creek Quilts and Wovens. They are a very talented group of artisans and you'll find them on the second floor of the Creamery Building. Mark your calendar today for the

show. It's a beautiful time of year to visit Schoharie Valley. Show admissions go toward SCHA's ongoing activities: the Railroad Museum and the complex of buildings that make up the museum, the 1743 Palatine House Museum (both are open to show-goers for the weekend), the programs for the children's theatre, the craft show in November and other theatre produc-

tions in the works. Come to 143 Depot Lane, Schoharie, on Sept. 21 and 22, enjoy a picnic lunch under the tent, walk the complex and treat yourself to a treasure from the past. For further information, call 518.295.7505 or 518.231.7241.

Moondance at Music on Main Street

by Rachael Takacs

On Aug. 13, Canajoharie hosted the second night of Music on Main Street, a free concert series held every summer on the NBT Green. Sponsored by NBT Bank, Saratoga Arts and Exit 97.7 WEXT Radio, the concert series is open to young and old alike. This particular evening, the Canajoharie Community Youth Center (CYC) was in attendance selling brownies, ice cream, root beer floats and other sweet treats. The CYC's goal was to raise money to benefit the youth center and its many functions specifically designed to help educate and entertain children.

Performing that night was Moondance, a Van Morrison cover band. Composed of six talented musicians, the group performed several familiar favorites such as "Domino" and "Brown Eyed Girl." Drummer Vinnie Brandi explained that the band had been performing for six years, and that Van Morrison had been their muse for just as long. He was pleased with the turnout of the event, stating, "We really enjoyed performing for the audience in Canajoharie."

Attending the concert that evening was Van Morrison fan Cheryl Vroman. She was enjoying the complimentary music and was very pleased with the band's performance. "They were all fantastic musicians and the 'Van guy' was spot on!" she exclaimed. "They were absolutely great. They played all hits nonstop for two hours with a 10-minute break. It was absolutely wonderful!"

Music on Main Street continued through the end of August. For more information, visit musiconmainstreetcanjo.com or their Facebook page at [facebook.com/Music-on-Main-Street-693792480665427](https://www.facebook.com/Music-on-Main-Street-693792480665427).

Small remembrances from favorite journeys

As a small boy, we did not usually venture far from home. When we did it was a memorable event. Like many small boys some material ob-

jects accompanied me home. Some collectibles were especially cherished and still remain with me after 80 years or more. I'll rummage through drawers, cupboards and boxes to find a few to share with the readers.

The Collections

1. When I was about 10 or 12 years old a cousin took me to Niagara Falls. Of far more interest was old Fort Niagara. While walking up an eroded path I spied a small, rusty object. Even then I knew a musket breech

plug that the gunsmith either threw away or lost before finishing. It would date back into the 18th

century.
2. A few years later I visited Fort Ticonderoga. When venturing down by

Water safety – Enjoy the water but stay healthy

Montgomery County Public Health wants to raise awareness about healthy swimming behaviors, including ways to prevent recreational water illnesses (RWIs). RWIs are illnesses spread by swallowing or having contact with contaminated water in swimming pools, water parks, spas, interactive fountains, lakes, rivers, streams or oceans. Illnesses at aquatic facilities can occur in or out of the water.

Recreational Water Illnesses (RWIs)

The best way to prevent RWIs is to keep germs out of the pool in the first place. Everyone can help create healthy swimming experiences this summer by following these six healthy swimming steps:

- Don't swim when you have diarrhea.
- Don't swallow pool water.
- Practice good hygiene. Shower with soap before swimming and wash your hands after using the toilet or changing diapers.
- Take your kids on

bathroom breaks or check diapers often.

- Change diapers in a bathroom or a diaper-changing area and not at poolside.
- Wash your children thoroughly with soap and water before they go swimming.

For more information about healthy swimming, visit the CDC's Healthy Swimming website at www.cdc.gov/healthyswimming.

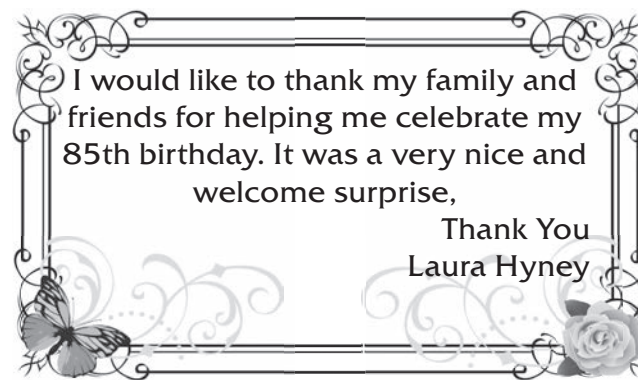

The water at the beach, river or stream looks clean, but is it? You cannot be sure since the water can contain disease-causing microorganisms that you cannot see but can be harmful to you. Different things, such as trash, sewage or animal waste, can pollute water. Swimming and swallowing unsafe water may result in minor illnesses such as sore throats or diarrhea, or can result in more serious illnesses. Pollution of water is common immediately after rainstorms or long periods of rainy weather

where bodies of water become overflowing and can contaminate each other.

- Avoid swimming after a heavy rain
 - Look for signs of pollution such as murky color or evidence of floating trash and do not swim if there is evidence of this.
 - Avoid getting the water you are swimming in close to or in your mouth.
 - Avoid eating anything that may have come in contact with the water, or water and sand toys.
- Microorganisms can

also lurk on lounge chairs, picnic tables and walkways that have become contaminated with the polluted water, therefore wash your hands with soap and water before eating if you have touched any of these items.

For more information about illnesses you can contract from polluted swimming areas, visit www.cdc.gov/healthy-water/swimming/rwi/illnesses.

TOWN of MINDEN
134 St. hwy 80
Fort Plain, NY 13339

Minden History Fair 2019
The Town of Minden will hold its 5th annual History Fair on Saturday September 21st from 10 – 4 pm. This year's event has been moved to Haslett Park in downtown Fort Plain and admission is free of charge to all. The event is a chance for local history enthusiasts to show their collections and exchange information on the history of Fort Plain, the Town of Minden and greater Montgomery County.
There will be many historical displays, demonstrations and exhibits by local residents and historians and collectors. Amongst the fun are an Old Tyme Movie Theatre, Old Farmer's Market, scavenger hunt, and new this year will be the Chocolate Jumbles Baking Contest.
A historical walking tour of the village will take place at 1:00 pm.
This year's event will also offer some "kid friendly" family fun with 18th century toys & games, German Heritage food for sale and free Stewart's Ice Cream.
Those with large collections may reserve table space for exhibition but residents are encouraged to bring their own interesting "pieces of history" for exhibit under the tent.
For additional information or to set up a table at the fair please call Rob Carter, Town of Minden Historian at 518-993-1023 or send an email to themindenhistorian@yahoo.com.

SMALL from 20 _____ were found there. The small fossilized tooth came from among the

rocks there.

4. One of the main destinations for us was the Custer Battlefield where Gen. Custer fought the

Sioux Indians. A Native American resided in a small cabin just off the battlefield. He had found empty cartridge cases,

doubtless fired at the battle. One is a 45-70 like Custer's men used. The other is a 50-70 that may have belonged to Indian guns.

5. On the return from Yellowstone we went to Dubois, Wyoming, where gemstones were found. The six of us rented horses to ride to the top of a mountain. Mine was anxious to throw me because I held it in while searching the ground for curios to take home. The area was very rocky and dry but occasionally there was a patch of brush and grass. They were the locations of springs of water. By one of them I found this small white arrow point.

The reader has accompanied me on several trips and viewed my souvenirs from them. Doubtless you also have such treasures. We all hope someone will treasure them in the future.
